  Polish Frontend, check all error messages

- any difficulties that you encountered;

    - We're unable to implement fitbound for the map, so we're debating on removing the zoom feature
    - Failed GET request, always return 304 and failed to update frontend
    - Getting random errors that appear with success message, failed to find the bug

- any changes made to your design or project plan.

    - Allow Business to navigate through the map as well

    - Removed the search by location feature

    - Add partial Search

    - View replies and review on customer profile page

Daniel mentioned that our covid rating might lead to some conflict?

Discussion: Talk about the difficulties and check if any improvements can enhance the project
